Junior Sugar Beet Competitions Are Organized

The Alberta Co-operative Sugar Beet Growers Association with the assistance of the Alberta government, Department of Agriculture, the Lethbridge board of trade and the Canadian Sugar Factories Ltd are this year sponsoring a Junior Sugar Beet Competition the entrants to be under 19 years of age.

The sugar beet territory has been divided into four districts namely the United Irrigation district of Hillspring and Glenwood, the Central district of Magrath, Welling, Anderson, Raymond and Stirling, the Lethbridge district of Stewart, Broburn, Coaldale and Tempest, the Eastern district of Barnwell and Taber. There will be five prizes of \$25.00, \$20.00, \$15.00, \$10.00 and \$5.00 making a total of \$75.00 in each district. In addition to this there will be five prizes of the same amount given for general competition in all the districts together with a challenge cup with the first prize and medals with each of the other four. These prizes are given by the Provincial Department of Agriculture.

Men will be sent out next week to sign up entrants for this competition. The object of this competition is to furnish incentive to the young people of the district to grow better sugar beets and foster the idea of a bigger tonnage among all beet-growers based on better care of the land and beets.

Board of Trade

The regular monthly meeting of the Raymond Board of Trade was held at the Club Cafe last Wednesday, with Pres. T. O. King in the chair, thirty members were present.

The secretary read the correspondence which had passed with the C.P.R. with regard to the approaches at the depot and it was learned that the Co. had provided for the needed repairs.

Mayor Cope addressed the meeting with regard to irrigation problems and gave the following figures as to present costs to the Town in taking care of same: Extra upkeep of water mains \$1768. Extra costs of earling for weeds \$475. Extra costs of culverts and roads \$2560. Water right to C. P. R. \$1050. total \$5853.00, less revenue collected \$1845., loss \$4008.

To the above should be added an estimate for depreciation of property being ruined by alkali.

Considerable discussion took place on the matter in which it was brought out that the expense above mentioned would provide a gravity system with trees, gardens, lawns and flowers, watered when necessary, would thrive with the application of tap water. It was admitted that lawns and trees were being ruined by alkali not to mention the flooding of basements and deteriorations to foundations, and unless drainage was provided it would be only a short time until the entire town would be effected.

Moved by Van Orman that it is the sense of this meeting "that we discontinue the excessive use of irrigation water and assist the council in the cur tailing the overflow of same". Passed unanimously.

Mr. Wood explained about the Junior Sugar Beet Competition and after a short discussion it was moved by Mr. Van Orman that the Board of Trade contribute \$20.00 for prizes for the immediate district. Passed.

The chairman in Mr. Knight's absence advised that the latter wished to resign as chairman of the Stampede committee. Moved by Mr. Van

Raymond 2nd Ward Win Mutual Shield

Last Saturday evening saw the close of the Taylor Stake M. I. A. Musical and literary activities contest with the Raymond second ward winning with a total score of 73 points in a closely contested battle in which the Raymond first ward finished second with 72 points. The other wards finished as follows; Magrath second ward 34, points, Magrath first 22 points, Stirling 21 points. The last three mentioned wards did not enter in a number of events.

Thursday nights musical contest ended in a decided win for the Raymond first ward. Honors were distributed as follows: Orchestra; Raymond first ward, first; Raymond second ward second. No other entries.

"M" Men's Quartette: Raymond first ward first, and Raymond second ward second. No other entries.

Organ Solo: Raymond second ward first; Raymond first ward second; and Magrath second ward and Stirling tying for third place.

The judge of the musical events was Mr. Langdale, of Lethbridge.

The literary contest of retold stories and public speeches was held on Friday night. The winners were: Retold story, by Juniors: Magrath second ward and Raymond second ward tied for first place; Stirling third; Raymond first ward, fourth and Magrath first ward, fifth.

Gleaner girls speech, Magrath first ward first; Raymond first ward second; Magrath second ward and Raymond second ward tied for third place and Stirling fifth place.

Miss Coleman, Magrath winner of the speech received a special prize of a set of books, donated by H. Hironaka.

"M" Men's speech, Magrath second ward and Raymond second ward tied for first place; Magrath first ward, third and Raymond first ward, fourth.

Mr. Drew Clarke, Lethbridge harrier was the judge of these events.

The contests were brought to a close on Saturday night when the Raymond first and second wards distributed the honors evenly, the second ward taking first in the one act play and the first ward first in the cotillion group dance. Mrs. A. E. Palmer, of Lethbridge was the judge.

Large crowds attended all the events and they were voted the most successful ever held, barring the fact that Magrath, Stirling and Welling wards did not enter in more events. 190 people participated in the preliminary contest and about 90 in the finals. The literary shield was given the second ward to hold until next spring and at the same time the handsome "M" men cup, donated by P. V. Parks, Lethbridge, was given to the first ward.

"M" men as the winners of the Interstake basketball championship.

Orman "that we do not accept Mr. Knight's resignation and a committee of 3 be appointed by the chair to investigate the situation. The following were selected: D. Lund, S. B. Card, F. T. Holt.

Mr. Snow gave a splendid report on the developments concerned with the organization work being carried on in connection with the project all weather road from Lethbridge to Cardston.

Mr. Maunsley complained about the mud holes near his farm which was the cause of considerable annoyance to him and motorists. Motion, Lund and VanOrman that the Sec. of the Board of Trade take up the matter with the Sugar City M. D. to have the necessary work completed within 5 days.

Mr. Ralph brought up the matter of our taking up the matter with the C. P. R. to have a freight shed established here.

Messrs Peterson, Hardy and Fawns from Stirling were present seeking to have the trail diverted from Craddock to Stirling.

WRESTLING CHAMPIONSHIPS ARE HUGE SUCCESS

From the standpoint of clean manly skill and strength on the mat, the wrestling meet held here Thursday, March 28, was, according to all concerned in it, one of the outstanding events of its kind ever held in the province. Not one hitch occurred to mar proceedings from the weighing in to the final bell. Contestants, spectators and officials went away well satisfied and thoroughly convinced that the boys who won in the finals were indeed worthy of wearing the medals representative of the championships of Alberta.

The committee was somewhat disappointed in the number of entries, there being but twenty one contestants to represent the whole province. Especially was disappointment keen that Magrath sent but four wrestlers after sponsoring the championships there for two years. Cardston brought down eleven under the old war-horse, Jim Blackmore, and from the look of things they will wear on their "manly hreasts" about as many medals as King George or the Prince of Wales. Those eleven contestants won no less than six gold and seven silver medals, an average of more than one medal around. The "four horseman" as the Blackmore Bros. are sometimes called took five gold and three silver medals, about as many as might be expected from as many boys. And this despite the fact that young Dan was suffering from intestinal "flu."

Financially the meet just about paid its own expenses. This would not have been possible had not the officials, Mr. Wilson of Lethbridge, and Foley of Milkriver, and Golden Woolf of Magrath, given their time and services free. The committee appreciate their kindness in this respect, as well the efficient, fair way in which they handled the matches.

The local committee worked very hard under the chairmanship of Kenneth Allred. Great credit is due them for obtaining the meet for Raymond and for the fine way in which the whole thing was conducted. They wish to encourage the young fellows of the town to get in shape for the next year. Follow the lead of Bruce Galbraith, Dean Wall and Harold Blackmore, who all did well for their first year.

A summary of the bouts follows: Match 1: Richard Blackmore, Cardston, met Karl Kozler, Medicine Hat, in the 134 lb. eliminations. Kozler was game, but he had no coaching. Blackmore pinned him twice in seven minutes. Kozler will be heard from again.

Match 2: Bruce Galbraith, Raymond met Daniel Blackmore, Cardston, in the 134 lb. eliminations. Bruce proved to be a tough customer for young Blackmore but experience told against him. Bruce had trouble making the weight. Blackmore won quite easily. Bruce is going to tackle him again next year.

Match 3: Harold Blackmore, Raymond, versus C. Phipps, Cardston, in the 100 lb. eliminations. Phipps is very small for his age while Harold is rangy and young. However Phipps had a tough time to win the decision after the bout had gone the route.

Match 4: Woodrow Caldwell, Cardston, versus Dean Wall, Raymond, in the 100 lb. eliminations. Caldwell was in excellent condition, having trained for the boxing eliminations. This was one of the best bouts of the evening. Caldwell used the headlock repeatedly, but Dean countered effectively and several times had Caldwell perilously close to the mat with both shoulders. Caldwell won the decision with a very narrow margin. Wall will go far with more experience.

Match 5: Glen Card, Magrath, versus Ken Wood, Cardston, in the 123 lb. eliminations. Glen's superior experience and generalship won two falls for him in about six minutes. The second one was a hard fall that nearly stunned Wood. Card is an all round good sport.

Match 6: Ray Blackmore, Card-

ston versus Douglas Layton, Cardston, in the 90 lb. eliminations. This was a fast bout, lasting for about four minutes. Young Blackmore hardly exerted himself to win. The feature of this bout was the wide smile that Ray wore from start to finish.

Match 7: Bill Blackmore vs. Ralph Meldrum, Raymond 145 lbs. eliminations. There again experience triumphed over the raw in about two minutes, to give Blackmore the bout. Ralph is a good clean boy who will be heard from in the future. He never ceases to smile even in the tightest.

Match 8: Stewart Grow, Cardston, vs. Elmo Fletcher, Magrath, 112 lbs. eliminations. Though Fletcher won on a decision, he had to extend himself all the way.

Match 9: 134 lbs. semifinal. Richard Blackmore vs. E. Evans, Magrath. Evans hardly knew what was taking place before he was put on his shoulders. He emerged in four minutes with a beautiful black eye, obtained in being dragged over the mat. This was Blackmore's second match but he was still going strong.

Match 10: 191 lbs. final. Clayton Livingston, Milk River, vs. Kenneth Allred, Raymond. Allred won in his own class without a match, but came up to his class for a struggle. Perhaps the most exciting tussle of the meet. These big fellows surely mauled one another in good style for the whole 15 minutes.

Despite Livingston's edge of about 20 lbs. in weight, he was several times very close to a fall. A feature of the bout was Allred's display of bridging himself clear across the mat out of a dangerous hold clamped on him by Livingston. Two or three minutes more would have given Allred the bout, as he was coming back strongly to overcome the lead which the Milk River boy obtained in the beginning. Livingston won the decision.

Match 11: 112 lbs. final. Elmo Fletcher, Magrath, vs. C. Phipps, Cardston. Phipps came up into this class after being defeated in the 100 lb. by W. Caldwell. He didn't last long with Fletcher, however, who took the match with two falls.

Match 12: Final. 134 lbs. class. Richard Blackmore vs. Daniel Blackmore. These boys didn't show much brotherly love. They tore into each other to win. Daniel emerging victorious after going the route with a temperature of over a hundred.

Match 13: Semi-finals. 90 lbs. class. Wallace Layton, vs. Douglas Layton, both of Cardston. These boys are twins. The referee and judges had a hard time to tell which was which. Wallace won the right to meet Ray Blackmore in the finals.

Match 14: Finals 123 lb. class. Glen Card, Magrath, vs. D. L. Allred, Cardston. Young Allred is immature, but cuts a very nice figure in tights. Watch him folks. Here again Card was aggressive and his experience carried him to victory over a fine boy, by the fall route.

Match 15: Final. 145 lb. class. Richard Blackmore vs. Bill Blackmore. Bill defeated to Richard.

Match 16: Finals. 100 lb. class. W. Caldwell vs. C. Phipps, both of Cardston. Caldwell with his headlock had no trouble obtaining two falls in six minutes.

Match 17: Finals. 90 lb. class. Ray Blackmore vs. Wallace Layton, both of Cardston. Layton defaulted to Blackmore.

Match 18: Finals 158 lb. class. Bill Blackmore vs. Richard Blackmore. Both boys came up from lower classes. At the bell they tore into it with a vim. After four minutes or so pretty a display of the art as one could wish for, Richard took the first fall with a leg and arm pinion developed by Jim Blackmore to overcome the restriction placed on the use of the scissor hold. The second fall went to Bill after four and a half minutes. Bill then took the third in a half minute to win the match.

RAYMOND HIGH WIN PROVINCIAL TITLE

Charles Romeril Passes Away

The death occurred on Thursday, March 28 at the Van Harem hospital at Lethbridge of Charles Romeril, southern Alberta pioneer and well known in district where for 20 years he was the C.P.R. water master on the local irrigation canal. His friends in this district will regret to hear of his demise. He leaves a wife, Sarah Romeril and four sons, Charles, Fred Alfred and George, and Mrs. Sarah H. Perrett, Mrs. John Bascom, Mrs. Vilete Henderson Mrs. Maude Schurtz.

Funeral services will be held at the Stirling chapel on Sunday April 7, at 2:00 p.m. Interment at the Raymond cemetery.

Is Canada Losing Her "Good Grain" Reputation

The farming world of Canada this last year has been filled with discussions in regard to practically everything that enters into production transportation, processing, and delivery of Canadian grains on the world's markets.

One important factor has come out of it all, and is not disputed, which is that Canada is in serious danger of the loss of her hardy won reputation for hard red spring wheat.

There is no disputing that if this reputation were to be lost it would be a catastrophe for the farmers of Canada, because it would mean at the outset that Canadian wheat would have to come into competition on an equal basis, which it seldom has had to do up to the present, with the enormous quantities of the hitherto regarded as inferior wheats from other wheat exporting countries. Most certainly this would mean not only lower prices but a higher marketing cost as well because it would be more difficult to sell due to less eager demand.

Apparently the wheat raisers of Canada too long have regarded themselves as occupying a preferred position and have really come seriously to regret that the person who buys their wheat should be satisfied with exactly what the Canadian farmer wishes to supply them with and should, in fact, regard himself as more or less of a lucky person to get this wheat at all.

This mental attitude on the part of the farmers is, of course, all wrong and if continued will certainly lead to disaster. The unpleasant fact remains that the real master of the situation is the buyer and not the producer, and if Canada wants to remain as the supplier to the world's markets of the highest quality of wheat, that will fetch a premium above the wheat from all other countries, when it is vitally necessary for the wheat producers of Canada, through their marketing organizations and other agencies, to take considerable pains to find out exactly the kind of wheat their customer demands and exactly the grade and shape in which the customer desires this wheat to be delivered.

The world's buyers require a maximum of some ten grades of Canadian wheat. The unpleasant fact remains that last year some 450 grades of Canadian wheat were offered by farmers to the marketing agencies for sale. By actual count, with our present grades and varieties, it has been computed that no less than 2,623 grades could be produced. The great bulk of which grades are absolutely and entirely unnecessary and preventable.

Without recounting the many facts for sale—One two door Ford sedan. In first class running order, spare tire chains and engine cover. \$150.00 cash or terms can be arranged—apply Thomas Allan, phone 128.

The Raymond High quint defeated the Calgary "Y" last Monday night in the second round by a score of 37-15 in the second game for the Alberta Junior championship. They won the first game at Calgary 28-19 which gives them a total of 31 points for the series.

The locals clearly outclassed the visitors in every department of the game, Dick O'Brien scoring almost at will. The Calgary boys seemed lost on the big floor and were unable to score when given a chance by the stalwart high guards.

This makes the second season that Raymond high has held the Duplessis Cup. They have only been defeated in one league game this season, and if it is possible to hold this team together in future years Raymond need not worry about a first class senior hoop team.

Earl Zemp and Kenneth Stone handled the game. The score and lineup was as follows: Calgary—Boulton, 0; Olson, 4; Horwitz, 3; Johnson, 4; E. Dick, 4; Bibby, A. Dick, J. Taylor and K. Robertson subs. Total 15.

Raymond—VanOrman, 8; O'Brien, 20; Nilsson, 4; Rolfsen, 5; Strong, 0; West, Snow, and Walker, subs. Total 37.

With the event of spring weather the municipality road outfits are preparing to pull out for their season's work. The plan this year is to build a government standard road from Raymond east to Craddock where it will join the Sunshine trail running from Sweet Grass to Lethbridge. About \$9,000. will be spent on this road. This means that in bad weather that people can use this route to go to north points by the additional travel of a few miles. After roads in the district will be repaired and built up.

Those who go to make up all these unnecessary grades it is sufficient to state that a great number of them are caused by mixing of different varieties. Therefore, no small number of this great mass of unnecessary grades can be eliminated by the farmer himself this coming year if he will determine to seed only seed that is pure, clean, reasonably true to variety and the right variety for his district.

Not only will the crops produced from such seed mature more evenly than scrub seed, not only will they give a higher yield because of the careful selective breeding work behind them but in addition they will give a higher grade because of the trueness to variety.

This last year for instance, because of the frost, was a very hard year for all wheats with the exception of the early varieties. Yet it was noticed by skilled professional observers that whenever good true-to-variety seeds had been used, particularly registered seed even with the later varieties that the resulting crop was much less harmed by frost and so commanded a much higher grade than the average run of crops of the same variety.

The air is full of co-operation these days but the farmer must not forget that only a small step in co-operation has been accomplished by co-operating together to put in an agency to market crops. True co-operation means that the farmer himself in turn will do everything in his power to co-operate, not only with his marketing agency, but also with the purchaser of his products. Both of these mean actually the same thing, producing as nearly as possible the kind of product the customer demands and in such shape as he requires.

As far as the wheat industry goes this simply means that crops will be produced which is as clean as possible and as true to variety as possible and of that variety which is most acceptable to the world's purchasers.

There is no money spent by the farmer which will bring him in such big profits as that spent in securing good, clean seed.

More cups to the pound, more flavor in the cup, more tang to the taste. That's what makes Red Rose Tea so popular. Every package guaranteed.

Canada's Future

In a very fine address by Mr. Graham Spry, secretary of the Association of Canadian Clubs, and printed in "The Canadian Nation," the subject of Canadian unity is dealt with under the title "One Nation, Two Cultures," which was likewise the heading over the article appearing in this column last week. In fact, last week's article was inspired by Mr. Spry's address.

In his speech, Mr. Spry urged that, above all, the two Canadian races should be frank with each other, speak out their feelings freely and courteously, and attack that underlying menace, the fear, the suspicion which ignorance breeds; and "working for common national ends, working the same national institutions, and developing the same national estate, they will learn to know each other, to recognize each as a Canadian, to feel a sense, not of fear, but of partnership." Then he said:

"One nation, two cultures; one nationality, two races; one loyalty, two tongues, on this the Dominion of Canada is founded, on this the partnership rests by solemn contract, by mutual trust. And thus it must abide or perish. Let it abide, and the nation will grow greater, and the world richer that two races, full of spirit, rich in the heritage that time endows, a tongue, a culture, each their own and shared at times in common, may live in amity as one, secure, serene, partners in the development of the noble estate to which we are fortunate successors. Let it fail, let race seek to dominate race, let prejudice take its rein and ride rough shod through the fine bonds that unite us and Confederation shall perish, and the peoples of Canada be thrust towards a future, dark and impenetrable."

Looking back over the sixty-odd years of Confederation, can any one imagine what the position of the present Dominion of Canada would be had the Canadian people of both races in 1867 not agreed to sink their differences and agree upon compromise policies and enter into a solemn compact with each other, both for the present and the future. Had such agreement not been reached there would have been no Confederation. Had there been no Confederation what would in all likelihood be the position and status of British North America today?

Would it be British? It is extremely doubtful. Long ere this it is highly probable that large sections of what is now Canada would have become merged in the United States. Certain it is that failing Confederation, the isolated Crown colonies would have remained weak, undeveloped. Instead, we have a great and prosperous Dominion, rapidly forging to the front as one of the great nations of the world, a tower of strength to the Empire, and already exerting no mean influence in the councils of the nations. The union effected by the solemn guarantees of the act of Confederation was not alone the creation of the Dominion; it was the salvation of the country at large.

Not only must the letter of that contract be lived up to, but the spirit must be observed. Failure on the part of the Canadian people, whether of British or French extraction, to recognize both the letter and the spirit of the union effected by Confederation will be fatal to its existence. And if Confederation fails, what are we to put in its place? Confederation is weakened by sniping tactics on the part of one race against the other, and if Confederation is weakened it may perish. On the other hand, cordial acceptance of the spirit of the Confederation pact, which we all laud annually on Dominion Day, will add strength to the structure, and enable a united Canadian people to resist all attacks upon their sovereignty and develop in peace their great heritage.

As Mr. Graham Spry truly states, any other future for Canada but that bound up in full acceptance of terms and spirit of the Confederation pact is indeed dark and impenetrable.

Utilizing Waste Product

Hot Water From Pueblo Factories Cleans Ice From Streets

Hot water as a waste product from ice plants and other factories of Pueblo, is being used by the city highway department to remove snow and ice from the highways. Street sprinklers and flushers are filled with the hot water and driven to the downtown streets. With one sprinkler following another, both directing streams of hot water onto the pavement, snow and ice melt immediately and are drained away. The hot water, obtained free, saves the city large amounts usually spent shoveling and hauling snow off the streets.

The trouble about mild weather which saves fuel bills lies in the fact that too often the saving has to be paid to the doctor.

Up to well into 19th century, in England, forgery was punishable with death.

W. N. U. 1779

Prisoner For Eight Years

Russian Boy Punished By Father For Joining Red Army

A story of an eight-year imprisonment of a boy by his father in a pit near their hut in the village of Savchukovo, Kursk province, has been brought to Moscow. In 1918 young Tarasoff joined the Red Army and three years later returned to his native village filled with enthusiasm for the new order. His reactionary father told him "The red army marches against the Czar and you must not serve its ranks."

According to the report, that night old Tarasoff dug a deep cave in his garden and binding his son hand and foot threw him into the pit apparently to keep him there until the return of the old order. Recently the father died and the villagers, chancing upon the living grave, extricated the worn and wrinkled man who although only 29 years of age had snow white hair. He was said to have been placed in a hospital.

PAINS IN THE BACK

These Are Usually Due To a Weakened Condition Of the Blood

The muscles of the back are constantly under heavy strain, and have but little rest throughout the day. They are therefore in need of all the nourishment and strength that plenty of pure red blood can give them. Unless they have this blood, you will have backache and continue to have it.

Backache seldom or never means kidney trouble. It is nothing more than the tired, worn-out muscles of the back showing their exhaustion because of the lack of good, pure blood. The one generally recognized efficient blood builder is Dr. Williams' Pink Pills. When the blood has been improved through the use of this medicine backache disappears. Mrs. F. Fairbairn, Essex, Ont., tells what Dr. Williams' Pink Pills did for her in a case of this kind. She says: "I suffered for nearly three years with a weak back. At times the pains were so bad that I had to walk half doubled over. I had tried several doctors with very little benefit. A friend urged me to try Dr. Williams' Pink Pills. I did so, and oh, the joy of once more being able to stand up straight without suffering intense pain. After using two boxes there was no doubt they were helping me. I used eight boxes in all and have not since had a sign of the trouble. I can do all my housework and not feel tired and worn-out as formerly. For all this I thank Dr. Williams' Pink Pills. If your dealer does not keep these pills you can get them by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont."

So Sympathetic

Mrs. Morningcall—Where is your magnificent big dog? You don't mean to tell me you've sold him.

Mrs. Nieldepinch—Yes, we sold him. It seemed a shame for a dog to occupy that commodious doghouse this winter when so many people are homeless and we disposed of him and rented his home to an artist.

The worms that infest children from their birth are of two kinds, those that find lodgement in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with work havoc there. Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

Speeded Up Paint Job

Mike was engaged to do a job for Mr. Smith.

After a while he came in saying the job was completed and asked for his money.

"But, Mike, I wanted two coats of paint on that building," said Mr. Smith.

"Begorra, you've got it," said Mike. "I mixed the first coat with the paint for the second and put both coats on at the same time. Speed is my motto."

Short of Breath

Smothering Feelings Choking Sensation

Mrs. H. Day, Dartmouth, N.S., writes: "For over a year I was troubled with smothering spells and shortness of breath, and it was impossible for me to walk, even a short distance, because of the choking sensation which followed."

After trying many treatments, in vain, I at last decided to try

and in a surprisingly short time they did me much good.

Price 50c per box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

I've forgotten I ever had any nerves

Your doctor will tell you how the act of chewing relaxes and soothes strained nerves, and how the healthful cleansing action of Wrigley's refreshes and tones you up all round. Aids digestion.

Opportunity For Canadians

Several Positions Are Open On Staff Of League Of Nations At Geneva

Opportunity for young Canadians who wish to live in the beautiful city of Geneva, and to become associated with the work of the League of Nations, is offered by a notice from the Civil Service Commission of Canada, circulated for the authorities of the League, which invites applications for one important and two lesser positions. Competitions are open to men and women.

The chief position advertised is that of secretary of the narcotic division of the permanent central board of the League. Applicants must speak both French and English, be under forty-five years of age, have had knowledge and experience of administrative and secretarial work, and be trained statisticians. Preference will be given to those having experience or knowledge of the narcotic problem, and any familiarity with the languages of Eastern and far Eastern countries. The salary attached to this post is about \$4,500 per annum.

A statistician at a salary of approximately \$1,700 a year is also required for the same division who must be bi-lingual and well qualified in commercial statistics. A secretary shorthand and typist is the third job, which calls for an experienced stenographer with some knowledge of drafting, filing and translation. This post carries the salary of \$1,700 per annum. Annual increases of \$50, are granted for the two last jobs up to a maximum of \$2,500 a year.

Those interested are requested to send their applications not later than April 1st, to the Secretary of the Appointments Committee of the League of Nations, at Geneva.

It is pointed out by those in charge of the central headquarters of the League of Nations Society in Canada, that quite a number of Canadians have made outstanding reputations in the work of the League, at Geneva, and that positions of those kind offer a splendid opportunity to ambitious people from the Dominion as promotion or transfer to more important work, is practically certain, if those getting the appointments show special aptitude in the League's activities.

Cold Killed B.C. Beaver

Many Imprisoned In Lakes Which Were Frozen To Bottom

Thousands of beaver are believed to have perished in their homes in the lakes and streams of interior British Columbia as a result of the recent protracted cold spell.

Harry Smith, who has trap-lines in the Aberdeen Lake and Grizzly Swamp country, reports that many of the little animals are dead in the higher altitudes and he bases his belief on the observations of a woodsman of many years experience. When all is well in the beaver huts said Smith, snow soon melts on the tops. Now there are heavy blankets of snow on all the houses along the traplines.

Smith believes that as the water was low in the lakes the entrance to the beaver huts was in shallow water. Heavy frosts came before the snow. The result is that many lakes are frozen to the bottom and the beaver imprisoned therein.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

The huge fog horn of a first-class lightship requires an engine of seventy-two horse-power to work it. It can be heard at a distance of twenty-miles.

Milnard's Liniment for Coughs and Colds.

Monarchy Divides Germany

Many Incidents Show People Still Cling To Old System Of Rule

Many incidents are constantly happening in Germany to show that the people are still sharply and incurably divided over the question of the monarchy. At Breslau a motion before the city council to remove the statues of three former emperors, including the ex-kaiser, and to rename streets in honor of revolutionary heroes occasioned a bitter fight but was passed by a vote of 40 to 38. At Nimptsch, Silesia, when guests entered a hall on the occasion of a state dinner the portraits on the walls of three former kaisers were seen to be covered. This precipitated a sharp quarrel and conflict which broke up the party.

Shipping Is Hurdle

On account of an outer and inner bar across the "channel" connecting Lake Maracaibo with the Gulf of Venezuela, only vessels drawing less than 12 feet of water can enter the port, with the result that but two shipping companies, one American and one Dutch, maintain a weekly passenger and freight service between New York and Maracaibo.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine, and as it is effective in dealing with many ordinary complaints it is an expensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Competes With Canada

Forty or fifty years ago, Denmark was a grain producing country. Then the Western Canadian prairies began to export grain cheaper than Denmark could grow it, and so she turned to dairy farming and its natural complement hog raising. Now she competes with Western Canada in selling bacon to England.

Capture Will Be Painless

New Invention To Be Used On Animals For Durbian Zoo

For the first time in history wild animals are to be captured painlessly for the Durbian Zoo.

Authorities of Pretoria Zoo have commissioned Captain Burnett Harris, the inventor of the so-called "mercy bullet," to carry out this task.

This bullet is practically equivalent to a hypodermic needle. The animal who receives it will feel no more than if it had been brushed by a thorn. The bullet itself contains drugs.

Milnard's Liniment for the Grippe and Flu.

"What rubbish are you reading there, Lucy?"

Lucy (aged 10): "It is not rubbish—it is a book on rearing children and I am seeing if you have brought me up correctly."

You Can't Dye a Dress with Promises!
You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain from three to five times more aniline than other dyes on the market.
Next time you want to dye, try Diamond Dyes. See how easy it is to use them. Then compare results. Note the absence of that re-dyed look; of streaking or spotting. See how soft, bright, new looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.
The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool.
Your dealer has both packages.

Milnard's Liniment prevents Flu.

Expansion Of Manufacturing In Prairie Provinces Expected To Proceed At a Rapid Rate

No sooner does an originally agricultural community tend to become stabilized and develop community centres than an effort begins to build up local industries. This tendency grows as the years pass on even without the additional impetus received when, besides a productive soil, the country is also found to contain valuable minerals. This has been the history of the Prairie provinces, especially in the post-war period, when it has been found that the rich mineral belt of Quebec and Ontario extends westward along the same parallels. Industrialization, therefore, is likely to proceed even more rapidly than heretofore, more especially should the natural resources of these provinces be restored unrestricted.

These provinces, long dependent upon external sources for manufactured products are more than ever set on achieving complete economic independence and are gradually accomplishing it. The period, indeed, is rapidly approaching when the cities of Manitoba, Saskatchewan and Alberta will pride themselves on their industrialization just as do the much older Eastern centres and conduct as ardent a propaganda for the stimulation of their local enterprises. Already in Manitoba the output of manufactured goods is approaching the value of its farm products. Last year its industries turned out goods valued at \$159,252,000.

Dominion Government statistics, indeed, indicate that farming is already in second place to industries in that Province now. Revenue from farming in Manitoba in 1927 amounted to \$115,074,000, whereas the value of manufacturing production in the Province in 1926 was \$132,718,452. Manitoba, being the longest established of the three provinces and the tendency of industries being to move westward, the trend is much more pronounced here than in the sister provinces. According to the Manitoba Industrial development board, a 21 per cent. increase was recorded last year in the Province's manufacturing output, the greatest growth being in steel, iron and paper products produced. In the period some sixty-two new industries were established with several other important locations foreshadowed.

The future will see an expansion of manufacturing in the Prairie Provinces at an increasing rate in the consistent effort to reduce the volume of imported necessities. It is not, however, to be anticipated that over the territory as a whole agriculture will ever take second place to manufacturing, but that rather the two will extend along parallel lines, each providing ever larger markets for the other. Industrialization should only increase western Canadian agricultural opportunity by building up a larger domestic consuming population and increasing the need for new farmers.

To Hasten Grain Planting

Day and night grain planting may be tried in Germany to avert a possible serious shortage of bread supplies during the coming year. German agricultural leaders, faced with small crops resulting from the February cold wave, are of the opinion that 24-hour planting is the only solution to the difficulty.

Customer: "I want to buy a house."

Real Estate Agent: "Did you have anything special in mind?"

Customer: "Yes, I want one with a parking place for my car, a sparkling place for my daughter, and a barking place for my dog!"

A cubic foot of water is convertible into 1,661 cubic feet of steam.

"Well, do you want three pennyworth of meat for the cat like yesterday?"

"No thanks—uncle has gone home again."—Moustique, Charleroi.

G. F. Goldthwaite, appointed Advertising Manager of the Canadian National Railways, to succeed the late H. R. Charlton.

Revised Rules For Hog Grading Adopted

Definite Classification Is Provided For In New Regulations

New hog grading regulations, which have been under consideration by the department of agriculture for a considerable time, have been passed by order-in-council and will become law upon official promulgation. It was announced by Hon. W. R. Motherwell, minister of agriculture. The new regulations provide for definite classification of bacon and non-bacon hogs, involving revision of grades so that hogs henceforth will be graded as nearly as possible in accordance with their actual commercial value.

Packers have undertaken to try to maintain the spread of 50 cents per 100 pounds between "selects" and "bacons" and all other grades have been left to find their own market level in accordance with the principle agreed to at the 1920 swine conference in 1927.

The new regulations also provide for the compulsory grading of all hogs at local shipping points in accordance with the official grades. "During the past year the federal department has had an opportunity to test out the practicability of country grading and are satisfied that it is feasible. Under this new regulation it will now be possible to get the information regarding the grade back to the farmer, as was requested by the producers' representatives at the 1927 swine conference held in Ottawa," Mr. Motherwell's statement says.

Other changes involve strengthening of the wording of the regulations from a legal standpoint, with a view to eliminating as far as possible the need for litigation in their enforcement.

Expansion Of Motor Traffic In Britain

Ownership Of Cars Is Growing By About 100,000 Annually

The notion that the United States has a monopoly on motor traffic expansion is discredited by a report to the American section of the International Chamber of Commerce from Paris on the growth of motor car ownership in Great Britain.

This, it is said, is mounting by about 100,000 cars annually, rising from 381,000 in 1923, to 787,000 in 1927. "This year's figures," the report continues, "will probably be near to the potential 787,000 suggested by the Society of Motor Manufacturers on the basis of national income statistics. The latter body believes, however, that the inclusion of private cars owned by business firms, and the growing popularity of the 'baby' car of seven or eight horsepower, may raise the potential figure of 950,000 or 1,000,000.

"Within the home market the British manufacturer has secured 82 per cent. of last year's new car sales in Great Britain—and so long as he enjoys the double protection of 33½ per cent. import duty and a taxation system based on horsepower his supremacy does not appear likely to be seriously threatened."

John McCombe, chief medical officer of the Canadian National Railways, announces the appointment of A. O. Beck, as chief organizer of First Aid for the system, with headquarters at Montreal.

A finger-ring made of mistletoe was worn in Sweden as a defense against illness until comparatively recent times.

Three Prairie Provinces Are Anxious To Extend Boundaries Northward To Arctic Circle

Soviets Suppress Religion

New Law Forbids Any Gathering Of A Religious Nature

Reports come from Russia about new attempts to suppress religion. A new law has been published, by which it is intended to limit by force even private worship. It forbids every gathering or meeting of a religious nature of women, children or young men. Religious libraries or reading rooms are no longer to be maintained. All objects to be used in religious worship are declared national property, and may only remain in the hands of religious communities in the form of a loan. All public worship in public squares, likewise all festivals in hospitals and prisons are forbidden. In the latter they may only be practiced for those who are seriously ill and who expressly ask for them. These renewed efforts are due to the great increase in religious interest of late amongst the Russian peasants.

Provincial Trade Marks

Indian Symbols Are Suggested To Distinguish Certain Products

The North American Indian was a master of pictorial condensation. Every totem told a story and told it well, and in Western Canada the proposal has been mooted that by a reversion to these totemic types much could be done in the way of devising trade marks for provincial products.

The marketing of goods with some distinctive label has become an important factor in economics and there is more in the suggestion than meets the casual eye. The symbols employed by the red man are unique, yet capable of infinite adaptation, and in time we may yet see on commodities a Koozoonick, or the head of a Haida chieftain, informing us at a glance of the country of origin.

Of British Origin

Investigation has disclosed that there is British blood in 87 out of the 95 members of the United States Senate, a fact which may have some influence on the voting when the quota question for immigration is raised again. Among the United States people as a whole the British strain is only 43 per cent., so it would appear to have a particular affinity for politics.

Health Brings Happiness

It has been said that "a hale cobbler is better than a sick king." Health is better than wealth, because wealth cannot be enjoyed without health. One's desires and needs cannot be satisfied if the health is poor. Health brings happiness.

20,000 people are killed yearly by snakes in India.

DAYTONA BEACH TRAGEDY

In one of the most spectacular and tragic denouements of Daytona Beach racing track history, Lee Bibbe, driver of J. M. White's speed-demon car, "Triplex," seeking to surpass the 231 mile world's record, set two days before by Major H. O. D. Segrave, crashed to the sand dunes and death at 202 miles an hour, snuffing out, at the same time, the life of Charles Traub, a news reel cameraman. The accident occurred before 20,000 spectators who lined the mile course and saw Bibbe flash by the starting point. The layout here shows: (1) Lee Bibbe, 42-year-old Daytona Beach garage mechanic, driver of "Triplex," J. M. White's racing car, who was killed; (2) and (3) Mrs. Segrave congratulating her famous husband, Major H. O. D. Segrave and (4) the huge crowd at Daytona Beach, Florida, who witnessed Segrave's victory and similar to the one that witnessed Bibbe's tragic end.

Is Sparsely Populated

Although Brazil is nearly as large as Europe and larger than the United States, if Alaska is excepted, its estimated population is only about 30,650,000, or a little more than the states of New York, Pennsylvania, Illinois and Colorado. Its four largest states have an average population of only one person to two square miles.

January Building Permits Higher

January's building permits for all Canada have doubled since 1920, having risen from \$4,017,924 in that year to \$8,364,670 in 1929. This is due, in part, to a natural expansion, and also to the fact that building operations are not now halted in mid-winter as they once were.

Hertz, a German, discovered radio waves in 1887, 20 years after Maxwell, an Englishman, calculated that they must exist.

Client: "Do you think my late father looked like that?"

Modern Painter: "That is how you have described him."

Client: "Then I am glad I never knew him."—Dorfbarber, Berlin.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nervilleine. Half a teaspoonful of Nervilleine in water makes a most efficient gargle. The germ-killing properties of Nervilleine quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nervilleine. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nervilleine and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

WORLD HAPPENINGS BRIEFLY TOLD

The Canadian Pacific Railway contemplates constructing a modern hotel in London, England. It is revealed in the annual report of the company.

Over two-thirds of the immigrants who entered Canada during the ten months of the current fiscal year came either from Britain, the United States, or preferred country sources.

The Edmonton Exhibition this year celebrates its fiftieth anniversary, the first show having been held within the walls of Fort Edmonton in 1879.

For the eleven months of the current fiscal year April 1, 1928, to February 28, 1929, immigration to Canada totalled 152,911, an increase of 15,979, or 12 per cent. over the corresponding period in 1927-28.

Reindeer racing is to be tried in Vancouver where a "stud" of twenty reindeer has been established and six Eskimo drivers are being trained to race their novel steeds round the track.

The British Admiralty has awarded a "good service" pension of \$750 per annum, beginning March 1, to Captain Kenneth C. B. Dewar, formerly commander of H.M.S. Royal Oak, who figured in a notable court-martial at Gibraltar last April.

Carl B. Eielson, of Haton, N.D., pilot for Captain Sir George Hubert Wilkins on his North Pole flight, was awarded the Harmon trophy for 1928, which is given to the U.S. flier making the greatest contribution to aviation during the year.

A Vancouver dispatch to the Montreal Gazette says: "The Duke of Gloucester (Prince Henry) who has left London for Japan to invest the Emperor with the insignia of the Order of the Garter, is expected to return home via Canada. It is understood the Duke will spend a holiday at his brother's ranch at High River, Alta."

NEW BABY DISTURBS TIRED OFFICE WORKER

"When my oldest boy was just a few weeks old he was badly constipated from my milk," says a Nebraska mother. "He kept us awake so much, my husband almost slept over his desk at the office. Then my doctor got us to give baby some Castoria and the next day he was much better. His stomach and bowels began acting perfectly and he gave us no more trouble." Avoid imitations of Castoria. The Fletcher signature marks the genuine, purely vegetable, harmless Castoria, doctors everywhere advise for those ill of babies and children, such as colic, constipation, colds, biliousness, etc.

Queer Rule in India

There is a rule in India that a younger daughter may not marry before the elder. In case the younger wishes to marry however, the way out is to marry the elder daughter to a tree or large flower, due care being taken that it be not a pine, poplar or elder, for these are sacred and it is difficult to get a divorce from any of these.

One of the "Young Ambassadors" who visited Canada last summer, Frederick Thomas Maco, of Old Kent Road, London, England, will return to Canada to take up farming.

APPETITE IMPROVED QUICKLY

Enjoy the Taste of Food

If you have no desire for food, and you feel out of sorts, and depressed, stimulate your digestive organs. Try Dr. Carter's own formula. These pills taken after meals will aid digestion, relieve the gas, regulate the bowels, expel constipation poisons and arouse appetite. All Druggists 25c and 75c red pkgs.

CARTER'S LIVER PILLS

W. N. U. 1779

Money In Fish Scales

Product Makes Essence Used In Manufacture Of Jewelry

The boast of the modern meat-packing industry, that all the pig is utilized except its squeal, is now followed by the announcement of the Maine fishing industry, that all the fish is being utilized, even its scales.

Pearl essence plants at Portland and at other points along the Maine coast are offering seven cents a pound for fish scales, and tons of scales formerly discarded by fishermen have been sold this season at a total price estimated at \$250,000.

One hundred pounds of the scales, for which the essence factories pay \$7, are required to produce one pound of pearl essence, valued at \$125 in the New York market. The essence, after elaborate processing, is used in the manufacture of beads, necklaces and miscellaneous jewelry.

The spinning and weaving of cotton is one of the most important and largest of the manufacturing industries in Portugal.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Royal Yeast Cakes

STANDARD OF QUALITY FOR OVER 50 YEARS

MAKE BETTER HOME MADE BREAD

A Meatless Luncheon

The following tested recipes solve the problem of a tasty luncheon without meat:

- Tomato Chowder**
- 2 cupfuls Borden's St. Charles Milk.
 - 1 pint hot water.
 - 2½ cupfuls canned tomatoes.
 - 1 medium sized onion sliced thin.
 - 1 tablespoonful butter or butter substitute.
 - 4 tablespoonfuls flour.
 - 2 teaspoonfuls sugar.
 - 3 teaspoonfuls salt.
 - ¼ teaspoonful pepper.
 - ¼ teaspoonful soda.
 - 6 water crackers split.

Melt the butter in the top part of the double boiler, add the onion, and cook it gently till yellowed, about five to eight minutes. Pour in the milk and water, set over the lower part of the double boiler and seal. Mix the flour, salt and pepper with enough cold water to make a smooth cream; stir it into the milk, and cook about fifteen minutes, stirring occasionally. Heat the tomato with the sugar; when boiling, add the soda and combine it with the thickened milk. For serving, put a split cracker which has been dipped in warm water, in each plate.

Many hotels in Europe permit passengers on their way across the Atlantic to reserve their rooms by radio, at the charge of the hotel.

SUNDAY SCHOOL LESSON

APRIL 7

THE MINISTRY OF ISAIAH

Golden Text: "Then I said, Here am I; send me."—Isaiah 6:8.

Lesson: Isaiah 6:1-13; 7:1-17; 20:1-6; 38:1-22.

Devotional Reading: Psalm 110:12-19.

Explanations and Comments

Isaiah's Heavenly Vision, 6:1-4.—In the year that King Uzziah died, I saw the Lord sitting upon a throne, high and lifted up; thus the prophet Isaiah begins his account of his vision and call to service. "This is more than a date; this is an experience!" exclaims Dr. C. R. Brown. Isaiah had a vision, a dream, in which God was vividly real to him.

"Isaiah saw God. Do men see Him today? Was He any nearer to Jerusalem than He is to London or New York? Did that old Hebrew possess faculties different from ours? Can we see and know God? What do we mean by seeing and knowing God? A spirit cannot be seen with physical eyes. We mean that we are so convinced of the reality of God that our thinking and living are determined by that conviction; so sure of Him that we live as if we saw Him by physical sight."—Amory H. Bradford.

"The conception of Isaiah's vision is singularly pure and lofty. It is a worshipper's thoughts when he draws near to God. The vision is but the service in the temple transfigured. The prophet fell into a trance while holding the service and musing on its meaning. Suddenly the house and service and the ministers became transfigured; the walls went apart, and the roof lifted itself up till it seemed the high dome of God's palace on high under which he stood, and the Lord the King sat upon His throne receiving the adoration of all holy beings."—A. B. Davidson. And His train filled the temple. There was

"No face; only the sight Of a sweeping garment vast and white With a heaven that I could recognize."—Browning.

"The king was dead, but God was alive. Who shall say that it was not something of the same strength of faith that came to James A. Garfield, when, speaking to a discouraged multitude in New York after the assassination of Lincoln, he exclaimed, 'God reigns; and the government of Washington still stands!'"—J. T. McFarland.

There are approximately 258 cinemas in Finland, totalling 40,000 seats.

Women, in some provinces of India, have been eligible to vote since 1924.

Charles Dickens wrote a "Life of Christ" specially for his children.

Vapors inhaled quickly clear head

OVER 21 MILLION JARS USED YEARLY

Gulf Stream Misbehaving

And Berlin Professor Is Predicting Another Glacial Age

The Gulf stream is behaving badly, according to a Berlin professor, who says it is flowing backwards in certain places. If it goes on like this we are told, we shall be back in a glacial epoch, some time or other. Many years ago the same charge was made against the Gulf Stream, and a journalist asked his editor what should be done about it. The editor, somewhat cynically, replied that it was a good one-day story, which turned out to be a correct estimate. Another prophecy that in 20,000 years time we shall be enduring another ice age in Northern Europe, leaves us—no not even cold. These long distance forecasts are safe enough to make, because when the time comes their authors will in all human probability be forgotten. We had much rather hear on reliable authority what the weather will be like this day week.

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy, and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Nearly ten million fish eggs and fry were transported over the Canadian National lines in 1928, for the stocking of lakes.

Feeling Run Down?

Over 400,000 women and girls who were weak, "blue," nervous, run-down, and unable to do their work properly, have improved their health by taking Lydia E. Pinkham's Vegetable Compound. By accurate record, 95 out of every 100 report benefit. You can be almost certain that it will help you too.

Lydia E. Pinkham's Vegetable Compound

Outstanding Authorities

on Farming and Live Stock Offer You Practical Information and Advice Based on Many Years of Successful Experience

The greatest array of practical, useable ideas for the Canadian Farmer ever gotten together in one book and it is

FREE

This book is offered as a contribution to the development of farming and live stock breeding in Canada. A group of outstanding farmers and agricultural authorities have put into writing the methods and findings which in years of experience, have proved most successful.

The practical experiences of these men have been compiled for Imperial Oil Limited by the Hon. Duncan Marshall, former Minister of Agriculture for Alberta, and put into the book "Field and Farm Yard" which is a veritable storehouse of information and advice based upon actual and successful farm operation.

This book is offered to you free by Imperial Oil Limited. "Field and Farm Yard" has been written by specialists in farming and stock breeding. There are articles on feeding beef steers and dairy cows, written by Thos. McMillan, M.P. and S. G. Carlyle, Alberta Live Stock Commissioner. Selecting and raising forbes, flocks, and studs is discussed in each breed by men competent in this business, among them being W. A. Dryden, Col. Bartley Bull, Col. Robert McEwen, W. L. Carlyle and R. A. Wright. Grain farming is treated by Dr. C. E. Saunders, producer of Marquis Wheat. All recommendations are based on the practical experience of farmers who are now using them to increase their incomes.

In the introduction which Hon. W. R. Motherwell, Federal Minister of Agriculture, has personally contributed to this book he writes in part: "The information is of such a useful character and covers such a wide field in agriculture that the book cannot fail to be of interest and value to any and every farmer into whose hands it may fall."

"Field and Farm Yard" is handsomely illustrated. Among its many illustrations are pictures of Canadian prize-winners and champions in different breeds of live stock. These in themselves are of special interest.

You will find the book intensely interesting at first reading and the longer you have it and the more you use it, the more you will value it as a handy reference.

Fill in the coupon and write for your copy of "Field and Farm Yard" now.

Hon. Duncan Marshall
Former Minister of Agriculture
for Alberta

Among the many contributors to "Field and Farm Yard":
Dr. C. E. Saunders, formerly
Dominion Cerealist, and
producer of "Marquis";
Wheat; W. A. Dryden, Chair-
man National Livestock Re-
cords Board, etc.; George E.
Rohlfel, Dominion Animal

British Budget Shows A Substantial Surplus Of Ninety Million Dollars

London, Eng.—Chancellor of the Exchequer Winston Churchill surprised and delighted Great Britain with the announcement that national accounts for the year 1928-29 after being balanced show a surplus of £18,394,363 sterling (approximately \$90,000,000). At adoption of the budget last year the surplus had been estimated at £7,738,000 sterling.

The chief causes for the better showing were understood to be improving trade, increased death duties and economy in expenditure.

About £4,000,000 sterling was carried over from last year so that the treasury now shows a surplus of approximately £22,500,000. This sum goes into a special suspensory fund for a rating relief scheme.

There was much rubbing hands with satisfaction among government supporters over the financial feat of closing the year so favorably.

The achievement is expected to prove an excellent campaigning point for the Conservative in the forthcoming general elections.

Wants Records Corrected

American Soldier Reported "Killed in Action" Asks To Be Declared Alive

Santa Rosa, Cal. Thomas L. Smith, of this city, reported "killed in action" during the World War, is very much alive and has appealed to the American Legion in an effort to have himself declared so.

For 10 years the government has been insisting that Smith's sister, Mrs. Nellie Johnson of this city, accept \$10,000 in war risk insurance for her brother's "death."

Mrs. Johnson and her brother both steadfastly refuse to admit he is "dead," and now Smith has asked the American Legion to add in straightening out the records at Washington.

Appointed Poultry Promoter

Regina, Sask.—Appointment of W. H. McLellan, Saskatchewan, as provincial poultry promoter, effective May 1, was announced by Hon. C. M. Hamilton, minister of agriculture. Mr. Hamilton said the appointment was made on the recommendation of the Saskatchewan Poultry Breeders' Association, in recognition of the growing importance of the industry in the province.

Long Flight Ended

Rio De Janeiro. — The Spanish aviators, Jimenez and Iglesias, landed their plane the Jesus del Gran Poder, at Bahia after completing a flight across the South Atlantic.

Radio Commission Making Western Trip

Will Investigate Domestic Conditions In the Broadcasting Field

Ottawa.—The royal commission on radio broadcasting headed by Sir John Aird of Toronto, will leave for Western Canada on April 5, to inaugurate its program of hearings into domestic conditions in the radio broadcasting field.

The commission will proceed direct to Vancouver, where the members will attend some of the sessions of the National Council of Education, which has placed on the convention agenda several papers relating to the radio question. A debate will also be held on the subject: "A national policy or exploitation of the radio." Hearings will be held in Vancouver and Victoria.

Public sittings will be held later in Edmonton, Calgary, Saskatoon, Regina, Moose Jaw, Brandon, Winnipeg, Port Arthur and Fort William, followed by a tour of Ontario, Quebec Maritime provinces and a visit to a number of centres in the United States.

The final report of the commission is expected to be submitted to the government before Parliament prorogues.

No Discrimination Against Canadians

U.S. Not Contemplating Any Legislation In This Connection

Washington.—No legislation has been passed or is contemplated which will discriminate against Canadians.

This was stated definitely by Commissioner of Immigration Harry Hull, in reply to a question from the Canadian Press concerning the incident in the Quebec legislature, where attention was drawn to reports of possible deportation of some 200,000 French-Canadians residing in New England.

The only new immigration legislation, which has been made effective in the American congress during the last session which could possibly affect this class of Canadians is the national origins bill, which was proclaimed a few days ago by President Hoover.

Erect Copper Refinery

Toronto.—Erection of a \$4,000,000 copper refinery near Sudbury was announced in the House this afternoon by Premier Ferguson. Consolidated Smelters and International Nickel are interested.

Disastrous Prairie Fire

Large Strip Of Country Swept Bare By Flames

Regina.—A prairie fire started northwest of Nedeauville, Sask., destroyed thousands of acres of pasture, the buildings on three farms, and was responsible for a man being sent to the hospital at Medicine Hat, where his wounds, though serious, are not thought to be fatal.

A strip of country about ten miles wide and twenty-five miles long was swept bare. At its closest to the main line of the C.P.R., it was ten miles away, north of Tompkins.

George Campbell lost his barn and outbuildings but managed to save his stock, some of this being singed when running through the fire. His loss is estimated at \$1,000.

John Fisher and family were driven from their home, which was destroyed by the flames, and are staying with neighbors. Mr. Fisher also lost all his buildings and feed for spring work on the farm. His loss is placed at \$1,500.

Fred Robinson, by plowing a fire-guard around his buildings saved these, but lost all his feed, valued at \$300.

Advertise Zeppelin Cruise

Plan Trip From Germany To America In May

Frankfurt-On-the-Main, Germany.—For what is believed to be the first time in history, the advertising columns in a daily newspaper were invoked to secure passengers on a long airship pleasure cruise.

The Frankfurter Zeitung carried the following advertisement, inserted by the Hamburg-American line Berlin Travel Bureau:

"The second Zeppelin cruise, to the Mediterranean and the Orient, will start about April 15 from Friedrichshafen. Passage per person 3,000 marks (about \$750).

"Zeppelin cruise to America about May 10. Passage from Friedrichshafen per person, \$2,000.

To Study Tourist Traffic

New Subject Taken Up At German Academy Of Commerce

Berlin.—Scientific research of tourist traffic, including particularly a study of its causes and its social, political and economic effects, has been added to the curriculum of the Academy of Commerce of Berlin. Transportation methods, hotel management and the work of expositions and fairs will also be studied, while special courses will be arranged for directors and managers of hotels, spas, fairs and so forth. A library dealing with the subject is to be assembled by the academy.

For Winter Fair Building

Saskatoon, Sask.—The provincial government is prepared to contribute one-third of the cost of a \$100,000 winter fair building at the exhibition grounds here on condition that the city of Saskatoon and the federal government donate like amounts. Charles Agar, M.L.A. for Saskatoon County made this announcement recently. Mr. Agar says it is practically assured that the federal government will contribute and almost certain the city would.

PRaises HYDRO DEVELOPMENT

Senator Norris of Nebraska, who praised Ontario Hydro development as one of the greatest in the world and the St. Lawrence development as most tremendous undertaking of this civilization. He also declared the United States high tariff policy is not wise.

Pack-Train Outfit Caught By Snowslide

All Were Rescued Alive But Escape Was Miraculous

Prince Rupert, B.C.—Members of a pack train en route to Marmot-Engineer mines near Stewart, had a miraculous escape from death when they were caught by a snow slide and completely buried.

George Ehm, at the Marmot workings, sighted the avalanche through field glasses as it struck the train. Rescuers hurried to the scene. Jack Morrison's hand was seen waving above the snow and he was dug out just in time. Jack Rennie, in charge of the train, was stunned by a block of ice but clung to a sapling until the rush had passed. A horse's foot was seen kicking on the snow surface and the animal was dug out alive.

Many Receive Assistance

Thousands Helped Last Year Under Empire Settlement Act

London.—Answering questions in the House of Commons Right Hon. L. C. Amery, secretary for the Dominions, stated that during 1928, 27,523 persons proceeded to British North America with financial assistance under the Empire Settlement Act. This compared with 20,619 to Australia and 2,175 to New Zealand. Information was not available regarding the number of assisted migrants who returned to the United Kingdom in the same period, he said.

Stock Restrictions Removed

Ottawa.—Dr. J. H. Grisdale, deputy minister of the Federal Department of Agriculture, has signed an order which removes the restrictions in importations of horses, poultry and dogs from the states of Lower California and Sonora, in Mexico. The order prohibiting the movement of all classes of livestock from the special states was made as a result of the prevalence of foot and mouth disease.

Fort Churchill Now Linked By Rail To Outside World

Lightning Strikes

Peace Tower

Electric Storm At Ottawa Turned Day Into Night

Ottawa.—Batteries of a recent severe electric storm centred their bombardment upon Parliament Hill and lightning playing directly over the buildings, struck the Peace Tower and caused the mighty pile of granite to shudder with the shock.

Lightning conductors prevented any serious damage. Only the tower elevator was put out of order. A second blinding flash struck at the southeast corner of the centre block, just above the rooms of the press correspondents, causing some consternation. There was no damage here, however.

The storm made the day as dark as night.

Between Canada and U.S.

Matter Of Ship Sinking Turned Over To Hon. Vincent Massey By British Envoy

Washington, D.C.—The sinking of the rum runner "I'm Alone" in the Gulf of Mexico by a United States coastguard patrol has resolved itself into a question for settlement between the Canadian and United States governments.

Sir Esme Howard, the British ambassador at Washington, who had made the original enquiries at the state department concerning the sinking of the vessel, informed the United States government that the ship was of Canadian registry and replies to his enquiries should be addressed to Hon. Vincent Massey, Canadian minister at Washington. All discussion will henceforth be conducted between the Canadian and United States governments.

Planning Survey Of Pacific Great Eastern

B.C. Seeking Services Of Alberta's Deputy Minister Of Railways

Victoria.—J. Callaghan, deputy minister of railways and telephones for the province of Alberta, has been in conference with Premier S. P. Tominic and cabinet ministers in connection with the proposed survey of the Pacific Great Eastern Railway, it was learned. The services of Mr. Callaghan, while the survey is being made, is sought by the government, as he was connected with the P.G.E. work when the line was first laid.

Prender Holmes stated that as yet it has not been decided whether the services of Mr. Callaghan could be obtained.

Regina Residents Killed

Regina, Sask.—Two well known residents of Regina, Mr. and Mrs. Armour, were instantly killed when their motor car was struck by a Los Angeles bound passing express at a level crossing on the Southern Pacific route. Both bodies were mangled in the wreckage.

Size Of Chinese Armies

Peking.—There are just over 1,500,000 men in the officially recognized armies of China today, according to the official reports of the various military commanders as reported by Kuo Min, the Chinese official news agency. These do not include the numerous bandit organizations.

British Financier Says World Is Approaching A Financial Crisis

London, Eng.—Sir George Paish, British financier and economist, who recently predicted the world was approaching a financial crisis, considers the 20 per cent. call money rate reached on the New York Stock Exchange a possible forerunner of the crisis, he told the United Press.

The white-haired authority on world economic conditions pointed to recent bank rates in various countries as indications that the world was suffering from what he termed "financial sickness."

"I am no prophet, however," he said, "I am simply an interested observer attempting to diagnose the world's financial troubles. In my recent speech at Manchester, I sharply called attention to a situation which I have been watching develop for some time past."

The world in general was overhauling, with the possible exception of South America, Sir George said. He emphasized "the utter folly" of various nations erecting tariff barriers which would prevent reimbursement of their mutual debts.

"It is of very great moment," he said, "that the situation should be surveyed not only by bankers and business men but by statesmen as well, in order that a collection effort may be made to avert a still more dangerous situation than now exists."

"High money rates in America since the middle of last year have been a notification to the world in general that America's power to lend has become much smaller and it is obvious that still higher rates of interest now current in America and the effort of American bankers to restrict credit already granted in the states themselves imply an almost total cessation of American credit to outside countries," Sir George said.

"Moreover, a high rate of interest cannot fail to affect American business adversely. If it is borne in mind that the great quantity of credit granted by the United States until the present time has been mainly responsible for the maintenance of world prices for commodities at the present level it is obvious that restriction of this credit must bring about a general fall of prices with consequences to producers throughout the world that cannot easily be measured."

"The situation would be exceedingly difficult if the volume of credit already granted were of normal dimensions, but, having regard to the vast amount of credit that has been granted throughout the world, it is obvious that restriction of American credit at the present time in the manner that seems probable cannot fail to cause a great world wide monetary stringency which in turn cannot fail to have serious consequences to both credit and business."

FLYING GOLD SEEKERS

Capt Charles Sutton, chief of Canada's flying gold seekers, accompanied by Mrs. Sutton, is here seen just prior to taking off from the Fairchild airport, Farmingdale, L.I., for an expedition to the Canadian North-west.

Trial Shipment Of Garnet Wheat To Be Sent Overseas

Ottawa, Ont.—Between 4,000 and 5,000 bushels of Garnet wheat is being put into sacks at Fort William to be shipped overseas. Excellent progress has been made in preparing this shipment which is done with a great deal of care in view of the importance to the grain growers. The future of this type of wheat will largely depend upon whether the consignment meets with favor among the millers of Great Britain and Germany.

It was first planned to ship 10,000 bushels in an open cargo but after consideration by the Wheat Pool which is looking after the arrangements and the Dominion department of agriculture, it was decided to bag about half the amount and ship that instead. The wheat will go to London and from there to be distributed to British millers and a representative miller in Germany. The department of agriculture officials expect that complete reports

will be available before the 1929 crop is ripe.

It was explained at the department that all the reports so far from both Britain and the United States have been satisfactory to Garnet wheat. The Canadian millers, however, have not been so favorable to this early ripening variety with the result that it has never been graded as No. 1. In many parts of the prairies the Garnet, because of its big yield and early ripening qualities, is the favored variety, and if it can take its place alongside of Marquis No. 1 it will mean much to the producers.

The department officials are confident that the report will be favorable because Garnet is a very hard wheat and it is believed will prove just the blend the British millers require to give the "punch" to the softer grades they import from other parts of the world. The present shipment will enable a thorough test by Canada's wheat customers.

CHAPTER XVI.—Continued

"Oh yes," he replied absently.
"You were gone for some time
this morning she stated.
"Yes," he concurred, "I went up to
bring Connie."
"Oh!"
Janet's fine eyebrows lifted slight-
ly, and she looked at Donald with a
curious intentness. "Why didn't she
come?"
"She wasn't home."
Her woman's intuition long ago
had told her that the "woodsprite"—
as Donald called Connie—was madly
in love with him. As she looked at
him now and noticed his pre-occu-
pied air, a pang of jealousy shot
through her heart like an arrow.
Was it possible that he had begun to
realize that the wild girl of the
woods was not a child, and that a
love for her had been kindled in his
heart? The thought made her feel
faint and she tried to put it from her
mind.

Lunch was finished now and they
were walking back to the lake.
Douglas invited the party to take a
trip around the lake in a motor-boat,
to which they assented gleefully.

Janet hesitated as Donald turned
away with Wainwright. "Aren't
you coming Mr. McLean?" she
called.

Donald turned and shook his head.
"I may be needed here," he said
briefly.

Janet flushed to the roots of her
dark hair and bit her lip in anger.
She was not used to being thwarted
in her desires.

Donald and Wainwright seated
themselves on a bench under the wil-
lows and lighted cigarettes. Donald
was ill at ease. The sound of Con-
nie's tragic sobbing was ringing in
his ears. He could see her little fig-
ure writhing on the ground in a tem-
pest of grief that had torn at his
heart-strings. He sprang involuntarily
to his feet and began pacing the
ground with quick, nervous strides.
Wainwright glanced up at him in-
terrogatively.

"You seem worried," he volunteer-
ed.

"I am," Donald admitted briefly.
Donald was ill at ease.

lon. How should he broach this deli-
cate subject? Although poor as he
the proverbial church-mouse, Con-
nie's father had the pride of Lucifer.
There was natural dignity in his
bearing, a certain aloofness in his
manner, that in no way interfered
with his unfailing courtesy, but had
always precluded exchange of in-
timacies. He had resided in this
wilderness for many years, but none
could say that they had any more
knowledge of his affairs at this mo-
ment than on the day of his arrival.

Donald decided to take the plunge.
He sat down on the bench beside
Connie's father and related the scene
he had witnessed that morning — of
Connie's preening before the mirror
with the magazine page pinned to
the logs; of the struggle with her
hair; of the flour sack, and of the
pitiful sobbing of the heart-broken
child.

Wainwright's face flushed pain-
fully. There was a look of poignant
suffering in his grave eyes. Of all
the races in the world, the English—
especially of the better class—fight
most stoically to hide their distress.

Wainwright leaned forward, his
throat working convulsively as he
struggled to regain composure.

"I hope you do not consider me
presumptuous," said Donald, a note of
anxiety in his tone.

Wainwright's hand reached forth
to clasp Donald's firmly. "No, I do
not doubt your sincerity. An inordi-
nate sense of pride has kept me in
my present circumstances. This
circumstance you have related has
brought me to a realization that it
is a selfish pride, as it has denied
Connie the privileges to which she is
entitled. There is nothing I can
say," he went on in bitter self-con-
demnation, "that can even partially
condone or palliate my stupidity. I
should have known that she would
require proper clothing now that she
is grown up. As a matter of fact"—
he paused, his distress acute—"my
finances are at a low ebb."

"How old is Connie?" asked Don-
ald, hoping to relieve Wainwright's
embarrassment.

"Nineteen."

Donald's head came up with a
jerk. "What!" he almost shouted.

"She is nineteen," Wainwright re-
iterated, a peculiar expression in his
eyes as he noticed Donald's bewildered
ment.

"Nineteen!" Donald re-echoed, a
bemused look on his face. "Great
Scott! This is a surprise. I thought of
Connie as being not more than four-
teen or fifteen."

"Connie's healthful outdoor life has
tended to keep her young, and her
mode of dressing enhances the
youthful effect," said her father as
he sat down wearily, a far-away look
in his eyes. "Her mother," he went
on softly, a tremor in his voice, "was
just like her; at the age of twenty-
five she looked almost a child." He
turned to Donald. "No doubt you
have wondered why I buried myself
in this wilderness?"

Donald nodded. At this moment
they were interrupted by members of
the Sports Committee, who wanted
Donald's advice on a matter pertain-
ing to the afternoon's programme.

It was evident to Donald as he
withdrew that Wainwright had
been about to disclose his past his-
tory, a history which had been locked
in his heart these many years.

At three o'clock the crowd began
drifting toward the race-course. The
centre of the valley had been cleared
of underbrush, and the long grass
burned under the watchful eye of the
fire-ranger. A small creek and a few
swampy places had been "corduroy-
ed" with cedar poles and then cover-
ed with soil. A judges' stand, with a
few hastily erected seats for Janet's
party, stood near the finishing point.
The horse-race as has been said, was
to be the feature event of the day.
The crowd surged happily from the
lake-shore to line up in orderly ranks
about the oval.

The brilliant and diversified col-
ours of the Klottchen's skirts and
head-gear showed in bright contrast
to the drab wearing apparel of the
white men. The Siwash Indians
were dressed in nondescript clothing
as to trousers and coat, but one and
all wore wide-brimmed cowboy hats
and displayed silk handkerchiefs of
gorgeous hues, knotted at the throat
to drape their shoulders carelessly.

Three husky farmers' sons from
Pemberton rode to the starting-line

THINNESS

Over-thinness is detrimen-
tal to a child's progress in
growth and health.

Scott's Emulsion

a body-building food and tonic
that overcomes thinness and
helps build up a sturdy body.

Scott & Borne, Toronto, Ont. 25-43

amid hearty hand-clapping and
shouting from their friends. A
swarthy-skinned rider, mounted on a
spirited black cayuse, came prancing
through the crowd. He lifted his hat
and smiled in acknowledgment of the
plaudits of the spectators. This was
Joe Lafonte, the half-breed who had
won first prize at the Lillooet races
for the past two seasons.

The wise ones averred that Paul
John, of the Indian contingent, would
give him a hard race. Paul John's
cayuse was young, but the previous
year he had run the half-breed's
horse a close second. Money was
being placed on all sides, particularly
by the Indians, who are inveterate
gamblers. Amid an excited babble
in Chinook, nine Indian riders came
laughing and shouting, with much
waving of hats, to prance about and
display their horsemanship before the
admiring crowd.

Donald, with Andy, Gibbs and
Wainwright, stood leaning over the
edge of the judges' stand watching
the aulmated scene below.

At this moment there was an agi-
tation at the far end of the oval,
where the crowd opened to admit a
horse and rider that came tearing
down the course like the wind.

"Look!" Donald shouted excitedly
as he seized Wainwright's arm.
"It's Connie!"

Down the course, riding like a
spirit of the woods, came the girl,
her golden hair blowing about her
face, sitting astride her mettlesome
horse and riding as if the wilderness
belonged to her alone.

Pegasus was not used to crowds.
With arched neck and quivering
flanks he reared on his hind-legs to
poise an instant, then leaped forward
like a rabbit. Connie sat on the bare
back of her adored cayuse as though
a part of the animal, her slender
body moving in gentle undulations in
perfect co-ordination with the move-
ments of the horse. She was hard set
to keep from running over the other
riders who sat mouths agape.

Connie was unknown to the great-
er part of the crowd. To them this
child-like equestrienne, with her
mass of shining hair, appeared as an
apparition. Her firm little hands soon
checked her turbulent mount, who
stood trembling with nervousness.
The crowd gave her a rousing wel-
come as soon as they had recovered
from their astonishment.

"Who is she? Where does she come
from?" they shouted.

Connie kept her eyes fixed on the
ground. She was outwardly calm and
serene; inwardly she was as nervous
as her fretting cayuse, and did not
dare raise her flushed face to meet
the battery of eyes around her.

(To Be Continued.)

Automobile Is Real Benefit To Humanity

Curse Is Man Who Does Not Use It
Wisely

The automobile, in itself, cannot
be a curse to anyone. The curse of
the automobile is that of the human
element, of the man who does not
know how to use wisely an instru-
ment of real benefit to humanity.

Unfortunately the human element
cannot always be controlled. There
always will be those who use auto-
mobiles for law-breaking purposes,
and who drive them so recklessly as
to endanger the lives of other peo-
ple.

If all automobile owners and driv-
ers were imbued with a real sense
of their responsibility to their fellow
men, there would be very few acci-
dents and there would be no need of
judges or anyone else baying to
make remarks derogatory to a ma-
chine that has become an essential
part of this country's life.

Holloway's Corn Remover takes
the corn out by its roots. Try it
and prove it.

Small Son: "What are diplomatic
relations, father?"
Wise Parent: "There are no such
people, my boy."

Use Minard's Liniment for the Flu.

In the influenza epidemic of 1918-
1919, in India, more than twelve mil-
lion of the population perished.

The annual catch of whales in the
Antarctic exceeds 10,000 a year.

Succeeds To Title

Resident Of Vancouver, Through
Death Of Cousin, Becomes a
Baronet

A second Canadian romance of the
British peerage, within recent weeks
has come to light in Vancouver, in
the succession of Eric Windham
Francis Carmichael-Anstruther, to
the baronetcy of Carmichael and
Anstruther.

The Vancouver man, now Sir Eric
Windham Francis Carmichael-Ans-
truther, bart., has left for the family
seat, Carmichael House, Thankerton,
Lanarkshire, Scotland, to settle mat-
ters in connection with the estate fol-
lowing the death of his cousin, Sir
Windham Frederick Carmichael-Ans-
truther, bart.

Sir Eric expects to be in the old
country about three months, after
which it is his intention to return
to Vancouver, where he has been em-
ployed as a draftsman for the past
three years.

Sir Eric comes of a very old Scot-
tish family which traces its ancestry
for 700 years. He will be the 11th
baronet of Anstruther created in
Scotland in 1700, and eighth of Car-
michael, created in England, in 1798.
According to a directory of titled
persons he will also assume the hon-
or of hereditary carver of the royal
household in Scotland and one of the
masters of the household.

Recipes For This Week

(By Betty Barclay)

FRUIT FRITTERS

2 oranges.
1 egg.
1/4 teaspoon salt.
1/2 cup milk.
1/2 cup flour.
1/2 tablespoon cooking oil.
1/2 teaspoon baking powder.
1/2 teaspoon sugar.

Beat egg until light; add milk,
flour, sifted with baking powder,
sugar and salt, and oil or melted
butter. Beat until smooth. Pare
oranges, removing membrane with
peel; cut in slices, and sprinkle with
sugar and a few drops lemon juice.
Have deep fat, hot enough to brown
a piece of bread while counting to
sixty. Dip orange sections in batter
mixture, and fry in deep fat until
puffed and brown. Do not fry too
many at one time. Drain on brown
paper, sprinkle with powdered sugar,
and serve with orange sauce.

APPLE AND ORANGE SALAD

Peel and slice oranges, rejecting
white membrane. Cut wedge-shap-
ed slices from red apples, without
paring. Arrange on lettuce-covered
salad plates, using alternate slices of
orange and apple.

GRAPEFRUIT SALAD

Peel oranges and grapefruit and
divide into segments, rejecting all
white skin. Arrange a circle of
orange segments on a lettuce-cover-
ed salad plate and fill centre with
grapefruit segments.

Reduce the Acid

Sick stomachs, sour stomachs and
indigestion usually mean excess acid.
The stomach nerves are overstimu-
lated. Too much acid makes the stom-
ach and intestines sour.

Alkali kills acid instantly. The best
form is Phillips' Milk of Magnesia, be-
cause one harmless, tasteless dose
neutralizes many times its volume in
acid. Since its invention, 50 years ago,
it has remained the standard with
physicians everywhere.

Take a spoonful in water and your
unhappy condition will probably end
in five minutes. Then you will always
know what to do. Crude and harmful
methods will never appeal to you. Go
prove this for your own sake. It may
save a great many disagreeable hours.
Be sure to get the genuine Phillips'
Milk of Magnesia prescribed by phys-
icians for 50 years in correcting excess
acids. Each bottle contains full direc-
tions—any drugstore.

Inventor's Claim Unusual

Wisconsin Chemist Says His Mech-
anical Device Can Be Taught

Claim that he has invented a mech-
anical device which is capable of
being "taught" is made by Dr. H. D.
Baernstein of the University of Wis-
consin physiological chemistry de-
partment, following a challenge is-
sued six months ago by C. L. Hull,
professor of psychology at the state
school.

Dr. Baernstein's "thinking" ap-
paratus consists of numerous switch-
es, wires and an incandescent light.
The mechanism, he said, is so ar-
ranged that the bulb may be lighted
by one of the switches and that any
of the other switches may be
"taught" to light the bulb. The oper-
ation he claims, is analogous to the
presentation of stimuli.

"The machine," Dr. Baernstein de-
clared, "is merely a symbol of mech-
anism of the human body."

Externally Or Internally, It Is
Good.—When applied externally by
rubbing, Dr. Thomas' Electric
Oil opens the pores and penetrates
the tissue, touching the seat of the
trouble and immediately affording re-
lief. Administered internally, it will
still the irritation in the throat
while induces coughing and will re-
lieve affections of the bronchial
tubes and respiratory organs. Try it
and be convinced.

Just a Memento

First Housewife—"I suppose you
carry a memento of some sort in
this pocket of yours?"

Second Ditto—"Yes, it is a lock of
my husband's hair."

"But your husband is still alive?"

"Yes, but his hair is gone."

Has a Reason

The mayor of Minneapolis has
been asked to confiscate and destroy
all the Gideon Bibles in that city.
The reason is logical enough — the
Scriptures say a lot about St. Paul
but nothing about Minneapolis.

None of us ever gets anything for
nothing, but that doesn't keep us
from trying.

Little Helps For This Week

"Do thy diligence."—2 Timothy
iv. 6.

There lies no desert in the land of
life;

For 'e'en that treat that barrenest
doth seem,

Labored of thee, in faith and hope,
shall seem

With heavenly harvest and rich
gathering life.

—Frances Kemble.

When you awake in the morning,
and when that heavy pain wakes too,
—oh, so sharply!—and the burden of
a moutonous life falls down upon
you, or rises like a dead, blank wall
before you, making you turn round
on your pillow, longing for another
night instead of an insupportable
day, rouse yourself. Remember what
you are,—a child of God; Say,

"What have I got to do today?" Not
"What have I to enjoy or suffer?"
but "What have I to do?" Don't try
to be happy, but try to work, work
for God, and happiness will come.

New Books Published

Last year holds the record for the
number of books published. There
were 10,612 new books, and 3,787
new editions issued in 1928, compar-
ed with 10,334 new books, and 3,470
new editions in 1927.

When the skin is moist, the re-
sistance to electricity is greatly de-
creased and serious shock may re-
sult from relatively low voltage.

FLU

Claims Many Victims in Canada
and should be guarded against.

Minard's Liniment

Is a Great Preventative, being one of
the oldest remedies used. Minard's
Liniment has relieved thousands of
cases of Grippa, Bronchitis, Sore
Throat, Asthma and similar dis-
eases. It is an Enemy to Germs.
Thousands of bottles being used
every day. For sale by all druggists
and general dealers.

WINDOLITE

The Improved
Glass Substitute

MADE IN ENGLAND

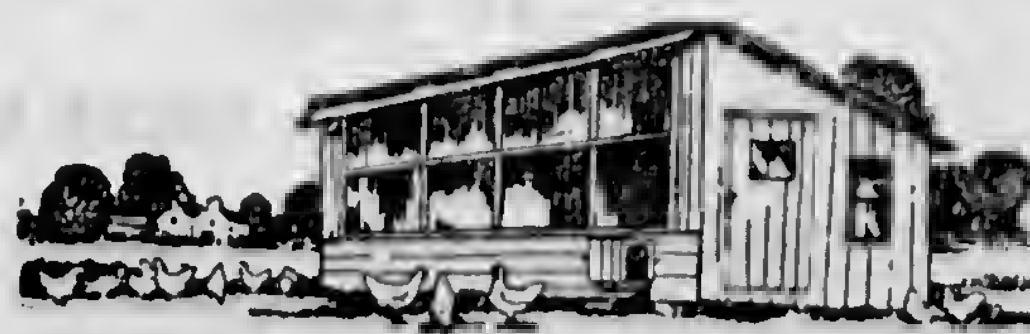

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It
makes light but strong windows for cattle sheds, dairy
stables, poultry houses, brooders and all out buildings. It
is economical, unbreakable, flexible and is easy to cut and
fit. It is now being successfully used for sunrooms,
verandahs, schools, factories, hospitals, sanitariums, hot
beds, plant coverings and greenhouses. It keeps out cold
—will not crack or chip—cuts with an ordinary pair of
scissors and is easy to fit. WINDOLITE is supplied in
rolls any length but in one width of 36 inches only. A
square yard of WINDOLITE weighs about 14 ozs., while
a square yard of glass of ordinary thickness, weighs
about 135 to 140 ozs. The improved WINDOLITE requires
no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Cut Production Costs With Three-Fuel Power

Three-fuel Hart-Parr tractors easily perform three operations at once, cutting the cost of producing crops right to the bone. Power does it—surplus power to handle big loads. With the world-famous Hart-Parr you can do as much in one day as you could with an underpowered tractor in three days. And the three-fuel Hart-Parr develops its power on the cheapest, low-grade fuels. Hart-Parr tractors are equipped with three speeds forward, from 2 1/4 to 4 1/4 miles an hour and are built for small, medium or large farms. Come in and see the 1929 line today.

Commencement Exercises At the School of Agriculture

The commencement exercises at the School of Agriculture which were held on Thursday, March 28, proved a very fitting culmination to a successful year's work.

We were especially fortunate in having with us Mr. H. A. Craig, deputy minister of agriculture and superintendent of agricultural schools for the province. Mr. Craig seemed very favorably impressed with the exercises and with the general tone of the work at this institution and spoke encouragingly for the future.

At 6.30 the banquet for the graduation class was held. It proved a most delightful function and drew much praise from the various speakers. Great credit is due Miss Jessie Redig, instructress in Home Economics, for the artistic manner in which she carried out the color scheme in the decorations and even the food in the colors of the school which are crimson and gold. The meal was served by the first year girls and largely prepared by them and it was eloquent proof of the value of the course as well as the efficiency of the cooking department. Mr. Barringer instructor in mechanics together with the first year boys assisted Miss Redig in a very able manner with the decorations.

At the close of the banquet, Lawrence Peterson M. L. A., and T. O. King chairman of the Provincial Trustees' Association, spoke briefly to the graduating class and expressed their confidence in the institution and a wish for its continued success. These speakers were both greatly impressed with the practical value of the course and encouraged the graduating students to return to the farm to cast their lot with the future of rural Alberta. They were certain that among the graduating class would be found many of the best farmers and home-makers of tomorrow because these students have received at the school the equipment which will fit them for service.

Following the banquet an extremely representative audience assembled in the auditorium for the commencement exercises. We saw many ex students from various towns in the district as well as parents of students and friends of the institution from Raymond as well as nearly all the other towns adjacent to the school. The auditorium was crowded to overflowing and many had to stand in the hallways.

The program proved very delightful and was enthusiastically received. It was as follows:

Vocal solo, Mrs. A. Burr; address, Mr. Longman; piano solo,

Mrs. D. L. Gilbert; reading, Mrs. Peterson; address, Mr. Craig; reading Mrs. C. O. Asplund; address, Mr. Priestley; presentation of diplomas and prizes, Mr. Craig; eulogistic, Clinton Hardy.

Principal Longman reviewed the work of the school and expressed the pleasure that the staff had had in dealing with the graduating class and and hoped that they would not forget the school but that they would act as missionaries for the institution by encouraging others to attend. He also thanked the people of the district for their support and enjoined upon them the necessity of continued effort in behalf of the school.

Mr. Craig gave a very inspiring address which was filled with advice and encouragement to the to the graduates. He especially encouraged the students to apply themselves to work and study if they wished for success. Mr. Priestly in well turned phrases indicated the strides the province had made in the past 25 years and opened to our view vistas of future possibilities. He said that he had been greatly impressed with the school motto "For Rural Stability and achievement", and hoped the graduates would retain that as their platform.

The evening was brought to a close by an enthusiastic if somewhat crowded dance.

Following are a list of the graduates:

Graduates in Agriculture—Clinton Hardy, Rex Meeks, Edward Peterson, Claude Peterson, Alma Parrish, Austin Russel, Ray Johanson.

Graduates in Home Economics: Misses Luella Atwood, Viola Schumers, Augusta Schneidt, Jennie Basniski, La Vera Mehew, Edna Hancock, Agnes Salmon, Natrona King, Doris Hovey, Irene Coombs, Effie McNeely, General Bullock. —From The Lethbridge Herald.

FOR SALE—500 bushels Early Triumph seed wheat matures earlier than Marquis just as good a yielder. Enquire at Parrish and Helmbecker elevator.

FOR SALE—10 acres of irrigated land one mile west of Stake House, just across the street from town limits. For particulars see—W. W. Rodeback.

FOR SALE—A few tons of certified Netted Gem Seed potatoes, sacked in 50 lb. bags. Price \$10.00 per ton. May be had at A. E. Handsames cellar, one half mile west of town, on the Welling road. If you want some good seed act quickly—R. P. Dahl.
